USE FOR GARDENING:

The Orgo-Life® 5G & EMF Quantum Equalizer Technology transmit negative energy into positive energy and bring positive change in everything around us, such as people, animals, plants, environment. It connects the whole universe and crosses everything. It brings peace, joy and produces healthy energies that support all forms of development.

Orgo-Life® is believed to increase plant fruiting and yield. Some Orgo-Life® are used to promote plant growth and vitality. They are beneficial to plants. By creating an Orgo-Life® Quantum Dome Technology for Plant Growth piece, you can use it for the same. You can place it in different places for certain effects at an effective range of about 2 meters.

You can keep it in seed containers for germination, near cuttings for root growth, near fruit and vegetable plants to increase yield, in ponds for water based plant growth, near flowers cut to keep them fresh longer or even near a fruit bowl to prolong the freshness of the fruit.

The Orgo-Life® Quantum Dome Technology are used to promote plant growth and vitality, so you should place them in areas where the plants are. They can be distributed in all areas. These Orgo-Life® convert negative orgone energy (positive ions) into positive orgone energy (negative ions). It also helps to get rid of the negative effect that electronics have on this energy.

If this etheric energy is disturbed, then problems can arise such as problems with the growth and vitality of plants. The best solution for this is to combine the negative energy emitting and positive energy qualities of Orgo-Life®, and with it, enhancing the properties possessed by the gemstones which are known to aid plant life. .

Even a simple Orgo-Life® mix can improve the growth and yield status of your vegetables and fruits. There are many plants that survive due to orgone positivity. In recent years there have been many experiences with the Orgo-Life®. Some say it has improved their physical, mental and spiritual well-being. It has a positive effect, which also improves wildlife, plant growth and local weather.

Even animals like to be surrounded by Orgo-Life®. Not only humans love it, but also birds, fish, bees and many other living creatures depend on positive orgone energy. We also notice that during the donation of Orgo-Life®, birds and other animals are more abundant and in visible presence when there is Orgo-Life®.

This is why Orgo-Life® is believed to have an important role in vegetable farming.

Note that; that your Orgo-Life® device is handmade, they all have small mini defects, very small holes, etc... when looked at very closely 5-10 cm (2-4 inches) , but at a good distance of 1.5 feet and more, they look perfect. Due to the manual work and the polyester resin product with the Orgo-Life, it is normal to look like this. Orgo-Life is a unique technology that can only be made by hand. It is above all an artisanal product.

Our devices do not claim to cure any disease or illness. Disclaimer: In the event of a serious medical condition, please seek the help and advice of a qualified medical professional. The potential health benefits have not been evaluated by national medical licensing bodies.
