Description
PRODUCT DESCRIPTION

The UL-7022 is an advanced energy stimulation system designed for use with the Orgo-Life® Quantum MedBed®. It consists of 20 Quantum Push modules, which are placed on the body's meridians.

Their mission: to reactivate vibrational circulation, release old tensions, and support the body's natural cellular intelligence.

Professional Wellness Use – Energy Harmonization in the Office or Center

Orgo-Life® vibrational technologies are designed to integrate flexibly and

effectively into all professional treatment settings. Whether you are a therapist, massage therapist, energy healer, Reiki practitioner, holistic coach, or animal companion, the UL modules, vibration domes, and 432 Hz music kits become valuable allies in your protocols.

They work in synergy with your methods, amplifying the relaxation effect, supporting energy rebalancing, and creating a coherent, stable, and secure atmosphere in your treatment spaces.

Passive devices such as discs, spirals, and domes allow you to establish a constant harmonization field, without noise or electromagnetic interference. They are also highly valued for preparing a room before consultations or for supporting clients during post-session relaxation phases.

Their compatibility with animals, children, hypersensitive individuals, and those in rehabilitation phases makes them a gentle, discreet, and professional technology.

With Orgo-Life®, you integrate a modern approach, aligned with the natural laws of life, without ever replacing humans, but rather vibrationally supporting them toward their overall well-being.

MAIN BENEFITS

- ***Stimulates energy meridians (legs, arms, chest, back, etc.)***

Please note that your Orgo-Life® device is handmade. It therefore has small defects, tiny holes, etc., when viewed very closely (5 to 10 cm). However, from a distance of 50 cm or more, they appear perfect. Due to the manual work and the polyester resin used for the Orgo-Life, it is normal for these defects to appear. Orgo-Life is a unique, exclusively artisanal technology. It is, above all, a handcrafted product.

Our devices do not claim to cure any disease. Disclaimer: In case of a serious medical condition, please consult a qualified healthcare professional. The potential health benefits have not been evaluated by national medical accreditation bodies.
