This list is a compilation of frequencies from Rife frequency researchers. Here you will find the largest Rife frequency database in the world. You can experiment with these frequencies and see if they work for you. If a frequency program makes you uncomfortable, stop using it until you feel better. Please note that these frequencies are for experimentation and entertainment purposes only. Please let us know which frequencies have helped you overcome your Health ailments (energy health issues).

Health ailments (not allowed to use the word: Problems). Happy Rifing with your Orgo-Life® MedBed, we have the largest Rife frequency database in the world. It has 16 SUB-databases including **BP, DNA, MW PROV CAFL, KHZ or BIO, etc...**

Most people wonder what these abbreviations mean. Here is a description of each of them:

**ALT** is an Alternative collection of frequency series from Ayurvedic knowledge and practices, Solfeggio, planetary vibrations and dowsing. (**UL-6000 thru UL-6-1- from Orgo-Life®**)

**BFB** for BioFeedBack (**OH-5552 machine from Magickey Teknik®**) contains frequencies from the body's retroactive responses (biofeedback)

**BIO** is based on Russian frequency research and offers excellent results.

**CALF** is the Consolidated Annotated Frequency List, collected over time by RIFE experimenters. This database has not changed since 2006.

**CUST** for custom, is your personal database. It also contains programs specific to the MedBed Orgo-Life® (after the Orgo-Life® course and on your computer) that are worth exploring.

**DNA**, gives frequencies deduced from the length of a DNA chain.

**ETDFL** is the Electro Therapy Device Frequency List. This database is the continuation of the CALE database.

**HC** contains frequencies from the work of Dr. Hulda Clark. (**Quantum Zapper UL-7000**)

**KHZ** for KiloHertz contains frequencies transposed to higher frequencies.

**MV** for Molecular Weight, contains frequencies calculated from the Monoisotopic molecular mass of many molecules.

**PROV** for proven (validated), gives consistent results on each Subject on which it has been used.

**RUSS** contains programs extracted from various Russian databases.

**RIFE** contains the original frequencies of Dr. Rife

**Bio-Feedback Machine  
Magickey Teknik® OH-5552**

**Dowsing Rod  
UL-6600 to UL-6610**

SD for Sample Digitizer is a database containing the frequencies of substances found by bio-feedback with the Magickey Teknik® Biofeedback Machine (OH-5552)

VEGA is based on Russian frequency research and offers excellent results.

XTRA is a collection of frequency series from various sources, all chosen for their reputations of effectiveness

In addition to offering all these Rife frequencies, Orgo-Life® also allows users to create and customize their own frequencies to their liking.

Here we have selected a large number of useful frequencies to make this list for your experimentation!
